

Critiques for the Open Show held at The Richard Greenhow Centre Gretna

July 15th 2018

Judge Mrs Linda Smith (Bellicose)

Thank you for the invite and also to my ring stewards who kept me in order Not a big entry but some lovely dogs to go over, pleased to see no lameness and good temperaments no Queen Anne fronts and no exaggerated toplines, although the Hall got warm even with fans blasting no dog was distressed or struggling The society had some fabulous prizes plus 100 pound kindly donated for BIS also some imported statues for the main winners

1st Miles Ranacani Valentino Rossi Brindle male Just a baby but already a really lovely male head, ears on top making him look alert, the right amount of forehead wrinkle and big round dark eyes correctly set, nose and jaw as they should be His front was straight most of the time but he could stand carelessly which will hopefully tighten up as he matures He was well ribbed back, he is a little high in rear just now Angulation back and front correct and chunky thighs, he moved around the ring freely and finished the day reserve best dog and Best Puppy In Show

Junior

Gordon's Rustibee Dock Of The Bay Raw brindle male who gives his handler a hard time as his mind is not on the job at hand When something caught his eye and he concentrated you got to see his head and expression, another with ears set high and lovely head work, he was really excitable so very hard to judge him he is clearly all male but needs time as he is very raw and as yet not Cooperating at all He has the makings of a good outline and is balanced with good angulation but didn't stand still for more than seconds however his balance and type I preferred to second place

2nd Quin Midlandbulls Tip Top Bigger built deep fawn male with a really strong front and bone His head was very pleasant with big expressive eyes, ear set ok and good wrinkle, muzzle strong and deep making a pleasant head, deep in chest but a little long and level in back, good strong rear which he used well going around the ring

Post Grad

1st Kasprowicz Lolek Z Przyzwoitej Wioski At Daniello Imp Pol Brindle male with a good overall outline, pleasant head but his ears could be a little higher set, wrinkle and head folds could be tighter, dark expressive eyes, ok muzzle and mouth Straight front and outline with some roach and cut up, he moved freely around the ring and he stood correctly each time I looked over at him

Limit

1st Howarth Gizyjo Sting Like A Bee I really like the Male he has so many outstanding virtues and so much breed type His head is fabulous ears bang on top good wrinkle and dark round eyes correctly placed, one of a few with a noticeable chin He was a little unsure of himself in the ring so he was not using himself to advantage therefore not doing himself any favours, short coupled dog with some roach missing in many, on the move his side gait was free and correct, a Male with many virtues

2nd Souter Nokomis Indian Music at Greusaiche Bigger Brindle male with fabulous ears and a kind expression another with correct fine wrinkle, his head overall very typical of the breed reminding me of heads before we saw all the exaggerations and head wrinkle like shar-pei creep in to the breed, the wrinkle should be fine not like rope He stood straight in front but also a tad straight in rear, his movement was sound and at his own pace

OPEN

Kasprowicz Daniello Easter Power Live JW ShCM Fawn mature male with in my opinion a great shape and balance, cobby dog with a roach and one of a few with a lower tail set, complimented by a good cut up and well sprung ribs, front was good and rear powerful he has a male head but would prefer tighter wrinkle, well set and carried ears lovely dark round eyes and enough muzzle, moving freely around the ring, on the day my best dog but would of preferred him with weight off to show his great outline a little more clearly Best Dog
2nd Roach Roalice the Maverick Brindle Male not as mature as the winner, lovely head type with ears on top and fine head wrinkle, dark soft eyes enough muzzle to and chin he is still very raw needing to frop in chest and thicken all through, moved and showed ok but could not match number one
